## PROFESSIONAL SUMMARY

Full-Stack Developer (MERN) with 2 internships and 5+ shipped projects spanning single-page applications, RESTful API integration, and LLM-powered applications. Experienced in building scalable, component-based web applications with clean code and agile workflows. Seeking a Software Engineering, MERN Stack, or Full-Stack Developer internship for 2026.

## TECHNICAL SKILLS

**Frontend:** React.js, Redux, Context API, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, SPA Development, Responsive & Mobile-First Design, Cross-Browser Compatibility  
**Backend:** Node.js, Express.js, RESTful API Design, JWT Authentication, OAuth, Middleware, MVC Architecture, npm  
**Database:** MongoDB, Mongoose ODM, MySQL, Database Schema Design, CRUD Operations  
**Tools & Practices:** Git, GitHub, Postman, VS Code, Chrome DevTools, Agile/Scrum, OOP, Data Structures and Algorithms, Cybersecurity Fundamentals

## EXPERIENCE

### Freelance Web Developer

*Self-Employed*

Remote  
2025 – Present

- Crafted 5+ responsive, client-ready web applications for small businesses using React.js and Node.js.
- Integrated reusable React component libraries, connected third-party RESTful APIs, and handled project deployment and hosting.
- Managed end-to-end client communication, requirements gathering, and iterative feedback cycles — shipped every project on time independently.

### InfoLabz IT Services

*Data Science Intern*

Ahmedabad, India

Jun 2024 – Aug 2024

- Processed and cleaned large-scale datasets of 10,000+ rows — missing-value imputation, feature encoding, and outlier analysis.
- Contributed to end-to-end data workflows including ingestion, transformation, and structured reporting for production tasks.
- Collaborated with the core engineering team on two live production data tasks; produced results independently with minimal supervision.

### Praxware Technologies

*Python Developer Intern*

Ahmedabad, India

Aug 2023

- Executed Python web application features and RESTful API endpoints from scratch during a 15-day sprint.
- Worked within an MVC architecture codebase using agile practices — daily standups, version control, and peer code review.

## PROJECTS

### Gemini LLM Chatbot | React.js, Node.js, Express.js, Google Gemini API, RESTful API

2024

- Engineered a context-aware AI chat application with multi-turn dialogue, custom prompt engineering, and edge-case error handling.
- Configured real-time streaming responses and secure API key management via environment configuration.

### Notes Studio | JavaScript (ES6+), HTML5, CSS3, Custom State Management | Live

2026

- Built a modular productivity application with create, delete, pin, search, and category-based filtering of notes — no frameworks.
- Applied a custom publish-subscribe state management pattern; organized code into independent modules for state, UI, storage, and events.

### Weather App | JavaScript, HTML5, CSS3, OpenWeather RESTful API, Fetch API | Live

2023

- Launched a responsive weather forecasting application with city-based search, real-time JSON data rendering, and dynamic weather icons.
- Handled asynchronous API calls via Fetch API; following mobile-first design principles and performance-focused UI practices.

### Full-Stack Banking Dashboard | MongoDB, Express.js, React.js, Node.js, JWT Auth

2024

- Architected a complete MERN stack application with JWT-based authentication, protected routes, and role-based access control.
- Mapped RESTful APIs for account and transaction management; modeled data using Mongoose ODM schemas.

## EDUCATION

### L.J. Institute of Engineering and Technology

*B.Tech in Computer Science and Engineering*

Ahmedabad, India

Aug 2025 – Present

### Ranchhodlal Chhotlall Technical Institute

*Diploma in Computer Engineering | CGPA: 8.22 / 10*

Ahmedabad, India

Sep 2022 – Jun 2025

## CERTIFICATIONS

Exploratory Data Analysis for Machine Learning — IBM

May 2026

Tata Cybersecurity Analyst Virtual Experience — Forage (*Threat Analysis, Identity and Access Management*)

Jul 2025

Introduction to HTML, CSS, and JavaScript — IBM

Dec 2025

Java Course — Mastering the Fundamentals — Scaler (*OOP, Data Structures, Exception Handling*)

Jul 2024

Python Course for Beginners — Scaler (*Core Python, OOP, File I/O, Automation*)

Jul 2024
